

Yearly report for 2014  
Tuscola Township Planning Commission

This year brought us to the use of the newly written zoning ordinances.

We also worked with and approved the purchase of the Dykehouse property by Blasius Inc. to move their manufacturing location to the Ormes Rd. site. It was felt this would be the best use of the former pickle plant and would remove the noise from the village of Tuscola.

Starting in January, the commission will be reviewing and updating the land use plan. Ron Eggers from Spicer engineering will meet with us on Jan. 14<sup>th</sup> to begin this process.

Thank you to all the commissioners who have faithfully given of their time and talents to work on the Planning Commission. Looking forward to working with all of you in 2015.

Sincerely,

Carol A. Smith, secretary
